

**HACETTEPE UNIVERSITY, FACULTY of MEDICINE**  
**PHASE I- “BECOMING a PHYSICIAN” PROGRAM (2022-2023)**

**PUBLIC HEALTH**

**ROLE of PHYSICIAN in HEALTH SYSTEM**

**BRIEF CONTENT**

## **Activity 1; Conference 1:**

### **Basic Concepts on Practicing Medicine as a Physician for the Individual and/or Community**

Date: 31 January 2023

Venue: Amphi

Duration: 2 Hours

#### **Aim**

At the end of this session, students are expected to gain awareness about physicians' roles for both the individual and the community.

#### **Learning objectives**

At the end of this session, the students should;

1. explain the similarities and differences between the individual and the community in medical practices,
2. define the similarities and differences between the individual and community in terms of health and health services,
3. explain the relationship between the good medical values and the individual-societal benefits.

#### **Content**

- Individual, community, society, physician
- Community/societal perspective of good medical practices.

#### **Activities**

- Presentation
- Case study
- Discussion

#### **Assessment**

- Homework at the end of the conference

#### **Reading materials**

## **Activity 2; Conference 2:**

### **An Ideal Health System: Why? How?**

Date: 7 February 2023

Venue: Amphi

Duration: 2 Hours

#### **Aim**

At the end of this session, raising awareness among the students on the need of a health system based on “*right to health*” is expected.

#### **Learning objectives**

In this regard, the students are expected to;

1. Define what “right to health” is,
2. Explain how health services should be organized compatible with the “right to health”,
3. Say how resources should be rationally allocated.

#### **Content**

- Need for the health systems.
- Need for the health systems based on “right to health” perspective.
- Rationale use of resources in delivering health services

#### **Activities**

- Presentation
- Case study
- Discussion

#### **Assessment**

- Homework at the end of the conference

#### **Reading materials**

## **Activity 3; Panel 1**

### **Physician in Health System**

Date: 14 February 2023

Venue: M Hall

Duration: 2 Hours

#### **Aim**

At the end of this session, the students should be able to understand the basic institutions in health system.

#### **Learning objectives**

In this regard, the students are expected to;

1. Define the basic components of health system,
2. Explain the public health systems,
3. Define the roles of medical professional organizations,
4. Explain the role of physicians in medical education.

#### **Content**

- Public mechanisms
- NGOs
- Roles of medical organizations in health services
- Community and physician in medical education

#### **Activities**

- Presentation by panelists representing different components of the system including medical organizations, role of physicians, etc.
- Discussion will focus on components of health system and role of the physician.

#### **Assessment**

- Participation

#### **Reading materials**

## Activity 4; Panel 2

### Health Team and Collaboration of the Health Professionals

Date: 28 February 2023

Venue: M Hall

Duration: 2 Hours

#### Aim

At the end of this session, the students should be able to be aware about the roles of health professionals and physicians within the scope of health services.

#### Learning objectives

In this regard, the students are expected to;

1. Explain the “team” concept
2. Define the responsibilities of the team in health services
3. Explain the roles of the team members
4. Define the roles and responsibilities of the physicians in providing health services.

#### Content

- Health team
- Health professionals
- Physicians as a component of health professionals
- Roles and responsibilities of the physicians in health service delivery

#### Activities

- Presentation by panelists representing different components of the system including medical organizations, physicians, nurses, etc.

#### Assessment

- Participation

#### Reading materials
